Contribution to HIE 13-59.

1. The attached material is the combined contribution of I/FE, I/EE and I/MS on machine building and has been coordinated by I/MS. Although I/FE made a separate contribution, estimates for shipbuilding are included in the tabulation of machinery output. A separate contribution on light industry will be submitted shortly by I/MS.

2. All questions regarding the attached contribution should be referred to the coordinator,
